Oct 3, 2017 Release of the official Version of Signal 2.0.1. Pulse Wave Sequencer Pulse Wave Sequencer is where you can create your own sequences. With 4 input sources, 4 output sources and a sequencer that is sequencer user friendly. It will also give you a more precise control over the output channels. Oct 18, 2014 Release of the officially digital version of Pulse Wave Sequencer Pulse Wave Sequencer 1.8.0 Beta Jan 17, 2017 Release of the officially digital version of Pulse Wave Sequencer 1.9.0 Beta Screenshots: References Category:Music software Category:DSP softwareQ: How to manipulate the look of a UIButton inside a UIDatePicker of a UIPickerView? I have a UIDatePicker in a UIPickerView. It looks like this: Notice how the button looks like a UITableViewCell with all the cells in the same color. I would like the button to look like an UINavigationButton with the back arrow in the left. Is this possible? A: You should probably subclass UIDatePicker and customize it to look how you want it to. A: Most probably is not a good idea because it will create unexpected bugs if you ever modify your app layout. If you insist in having that look, then you can do the following. Step 1: Create a custom button type using UIButton. For instance: let customButton: UIButton = { let b = UIButton(type:.custom) b.frame = CGRect(x: 0, y: 0, width: 100, height: 20) b.setTitle(" ", for:.normal) b.titleLabel?.font = UIFont.systemFont(ofSize: 14) b.setTitleColor(.red, for:.normal) return b }() Then just put the button on your pickerView. Step 2:
