Zen: Coloring Pages For Kids Free X64

Zen: coloring pages for kids is a neat app designed for both PC and touchscreen-compatible devices to deliver a coloring book experience to your child. It doesn't matter if you're a bored 40-year-old or you are downloading this app for your child, both of you can get a kick and a couple of good hour's worth of fun out of it. The illustrations that need coloring are cartoonish yet well drawn which will make your kids extremely happy, while the coloring tools used are a bit beyond that level, being a borderline graphics designing app. A combination of a traditional coloring book and the latest graphic's technology The app's intelligent coloring algorithms prevent you from ever drawing outside of the lines, so it doesn't matter how good you are at drawing, they will be impeccable at the end. The tools used are also among the most commonly met in these types of apps, from the brush tool to the color fill (bucket) tool. A neat departure from the traditional toolset used in such apps is the used of a gradient brush with adjustable pressure, allowing you to seamlessly blend colors, resulting in visual masterpieces. If however, you do make a mistake, you can always cancel the last actions you took, or can even do a complete reset on the whole picture. A great coloring book for both beginners and advanced digital artists While coloring books aren't an artform per-say, they are a good stepping stone towards improving your drawing skills. If you are looking to improve the early skills of your child this is the app for you. This is the child oriented version of the popular "Colorzilla" app. This app has all the features of the popular Colorzilla app, and even more. This app includes a little book with 23 coloring pages to load onto your device. Each of the 23 pages has a different cute cartoon animal, and the fun part is that you can color the animal however you like." "Kids Coloring Apps for Android is even more powerful than its original. Version 2 is a much better version of the original than the version 1. As with the other apps, this app teaches your kids how to improve their creativity, color and problem solving skills. This app is also able to teach them patience while coloring." "Kids Coloring Apps for Android is designed in a way that helps you actually have an enjoyable time with your kids. You can watch your kids color with this app while you both enjoy watching the pages turn. This is a perfect app for using with your toddlers as they have no problem with the amount of time it will take them to finish coloring a page. As children, we used to use markers and crayons, but we now see that technology has brought along something better for us. ".
